"Behold! I Shall Make ALL Things New"

OUR NEW YEAR'S MESSAGE ON ATOMIC POWER

By C. Leon de Aryan

It does not matter where you make the beginning if only you keep on a straight line of intellectual integrity you are bound to find the Truth, if that is your goal. I have found it repeatedly and with clocklike regularity, but it takes the Love of Truth above ALL, otherwise the thing you love more interposes, and, naturally, it not being the Truth, misleads you, but that is your own fault for not being honest with yourself.

I have always held that this paper is not mine, in a possessive, commercial, exploitive sense of the term "mine", but that it belongs to the **Service of the Truth.** In that spirit I have conducted it and most recklessly dissociated it from financially profitable ventures whenever is contravened **the Service.** As a result people and conditions conspired to progressively lead me on from one daring venture to another and in this issue one more reader contributes the incentive that will start the New Year in the proper spirit of Mazda's Light and Life with the promise to its devotees: **"Behold! I shall make All things New."**

Dear Editor:

I have read practically every issue of the Broom for the passed 2 years, and I am one who can certainly appreciate such noble effort and principle held by the editor.

It has certainly been a most welcome source of information to me.

But as reader I am asking the editor to challenge his own attitude and to show cause why he condemns Nazism and Hitler as criminals against the White or Aryan race.

It is true that war is devastating, murderous and anti-Christ but is it not also true that any man or nation has a right to self-defense, no matter what it may have been forced to commit in the course of struggle?

To condemn Nazism under the circumstances and conditions Germany found herself in since World War No. I, is equal to condemning self-defense; in the light of what is happening to Germany under Allied occupation and what has happened to the White Russian people since 1917, all financed by Talmudic Jewry active in all nations.

I further ask the editor to challenge his own views to show the difference in Nazism under Hitler of Germany and New Dealism under Jewry in the United States; which has committed the greater crime against the white race?

If George Washington's Vision is self-evident that we are destined to fight it out on our own soil, can we justify our actions!? Will it be self-defense or will it be a crime? Even if ignorance be our only enemy.

Is it not true that the deciding factor is to determine their motive as to whether or not the intent was to destroy the White Race? Also, is it not a common fact that to destroy the White Race is the motive of Talmudic Jewry and the Red dupes.

Sincerely, HANS

WASHINGTON'S VISION

Hans has reference here to a narrative ascribed to Anthony Sherman of Philadelphia who on July 4, 1859 is supposed to have spoken to a reporter and repeated a conversation Sherman had with Gen. Washington during the winter of Valley Forge. The Gen. confided the contents of a prophetic vision which up to now has been fulfilled in all details and he correctly foresaw the wars and struggles of the new nation.

According to this narrative we are just now facing the last war, culminating in invasion of our soil by armies from Europe, Asia and Africa with fearful consequences, but in the end we repeal the enemies and peace reigns henceforth: The Millenium.

Following we reproduce that portion that there be no argument over the correct verbiage employed.

ANTHONY SHERMAN'S NARRATIVE

"And again I heard the mysterious voice say 'Son of the Republic, look and learn.' At this the dark shadowy angel placed a trumpet to his mouth and blew three distinct blasts; and taking water from the ocean, he sprinkled it upon Europe, Asia and Africa. Then my eyes beheld a fearful scene: From each of these countries arose thick, black clouds that were soon joined into one. And throughout this mass there gleamed a dark red light by which I saw hordes of armed men, who moved with the cloud, marching by land and sailing by sea to America, which country was enveloped in the volume of the cloud. And I dimly saw these vast armies devastate the whole country and burn villages, towns and cities that I had beheld spring up. As my ears listened to the thundering of the cannon, clashing of swords and shouts and cries of millions in mortal combat, I again heard the mysterious voice saying, 'Son of the Republic, look and learn.' When the voice had ceased the dark shadowy angel placed his trumpet to his mouth and blew a long and fearful blast.

"Instantly a light as of a thousand suns shown down from above me, and pierced and broke into fragments the dark cloud which enveloped America. At the same moment the angel upon whose head still shone the word 'Union,' and who bore our national flag in one hand and a sword in the other, descended from heaven attended by legions of bright spirits. These immediately joined the inhabitants of America, who, I perceived, were well nigh overcome, but who, immediately taking courage again, closed up their broken ranks and renewed the battle. Again amid the fearful noise of the conflict, I heard the mysterious voice saying, 'Son of the Republic, look and learn.' As the voice ceased, the shadowy angel for the last time dipped water from the ocean and sprinkled it upon America. Instantly the dark cloud rolled back, together with the armies it had brought, leaving the inhabitants of the land victorious.

"Then once more I beheld villages, towns and cities springing up where they had been before, while the bright angel, planting the azure standard he had brought into the midst of them cried with a loud voice: **'While the stars remain and the heavens send down dew upon the earth, so long shall the Republic last.'** And taking from his brow the crown on which was blazoned the word 'Union,' he placed it upon the standard while the people, kneeling down, said 'Amen.'

"The scene instantly began to fade and dissolve and I saw at last nothing but the rising, curling vapor I had first beheld. This also disappearing, I found myself once more gazing upon my mysterious visitor who, in the same voice I had heard before said, 'Son of the Republic, what you have seen is thus interpreted: Three great perils will come upon the Republic. The most fearful is the second, passing which the whole world united shall not prevail against her. **Let every child of the Republic learn to live for his God, his land and union.** With these words the vision vanished, and I started from my seat and felt that I had seen a vision wherein had been shown me the birth, progress and destiny of the United States."

"Such, my friends," concluded the venerable narrator, "were the words I heard from Washington's own lips, and America will do well to profit by them."

WHO ARE THE JEWS ?

To understand and unravel a complex problem, we must first analyze it and find its component factors. Once we see the workings of the various factors we can easily appreciate the mess produced.

Who are the Jews? An Iranian, or Aryan, fellow: Abram, left the Gulf of Persia (Basra) motivated by the desire to spread the Aryan doctrine of One God to the ignorant, non-Aryan natives of Mespotania, Asia Minor and points south. He sired a son Jacob whom he trained for the purpose. Jacob sired at least a dozen other sons who with their wives and concubines wandered into Palestine announcing to the childlike minds of superstitious natives that they, the Israelites, were a specially privileged tribe of the Only God, more powerful than all the other gods of the natives combined, and this Yawe had given all power over the world and all its occupants to Jacob and his clan. Whoever wanted to share this special privilege had to accept the new religion and could then do any damned thing he pleased as the chosen pleni-potentiary of Yawe, mightiest of all Gods. Period.

Less than 70 of this gang moved into Egypt. Jacob's offspring was a robber band who even sold their own flesh and blood into slavery out of jealousy of Joseph's special position in Jacob's affections.

The new robber, plunder and licentious religion appealed to the Egyptians and Negro down-trodden classes under the yoke of a corrupt priesthood and the Pharaohs. In no time flat the small band had accrued followers who all became Jews to the tune of tens of thousands. All color line was ignored and blacks, yellows and whites commingled. Same licentiousness as introduced by the same Jewish Communists in Russia with marriage and divorce just a matter of verbal formulas.

A Jew is a racial bastard who respects no law of God or Man because he considers himself as specially privileged by God to do as he damned pleases, as long as he can get away with it. That is the secret why Jews penetrate everywhere and take control by treachery and murder.

Moses committed murder before he led his gang out of Egypt and promptly married a negress on the trek to Sinai, setting the example which continued to mix races and violate the laws of God and Nature.

War Criminal Baruch

TAKING OFF THE HALO

Occasionally some scribbler paints a halo around the head of Bernard Baruch, how he suns himself on a Washington park bench, and feeds the pigeons while discoursing profoundly on national policies, a retired multi-millionaire of benign soul, intent upon his devotion to the public weal, advisor to presidents, patron saint of American capitalism.

We have had our doubts about this gentleman since he wrote a reconversion program leaving any consideration for labor clear out of the picture. Now Drew Pearson reveals that Baruch was one of the two high-up Americans the Japanese government was using to beguile the Roosevelt administration while the Japanese fleet was steaming toward Pearl Harbor.

Frank Walker, former Postmaster General himself disclosed that he was the other man. But "honest" Bernard never said a word, apparently, until he was questioned, and then gave the alibi that he was "trying to get information" from the Japanese. Quite clearly, he got no information worth a red cent.

But Pearson says that one of Baruch's contacts with special ambassador Kurusu was one Raoul Eugene Desvernine, former head of Crucible Steel, and organizer of the anti-FDR and pro-Fascist "Liberty League," and evidently a dabbler in international intrigue.

Desvernine was angling to sell cotton to Japan right up to Pearl Harbor, and on December 5 had written to the Japanese banker in New York, extending thanks to "your colleagues" and offering "help in their principles in this country." When the FBI got after Desvernine, Bernard Baruch "intervened" on his behalf, and the investigation was then dropped.

No wonder Baruch has remained silent on his contacts with the Japanese, and chooses to be known as the simple-souled old gentleman who feeds pigeons and chats sagely of human welfare.—People's Daily World.

Starving German Children

Dear Mr. de Aryan,

Enclosed is a money order for $1.25, for which please extend my subscription 4 ½ months. I find The Broom such interesting reading.

When a revenge group wants to destroy a people; if they are clever, they will concentrate on that nation's children. Haven't you noticed articles against the German children, all during the war? Not for nothing did Lillian Hellman write that ridiculous play about a German boy.

A woman from New York City came to work in the same store I did. From a distance she seemed to have a mass of lovely blonde hair, however, on closer view, it was black at the roots, her eyes were black and her nose a hook. She said to me in her hoarse "Newyorkese" voice, "All the little babies in Germany should be killed. They are little monsters and the world would be better off."

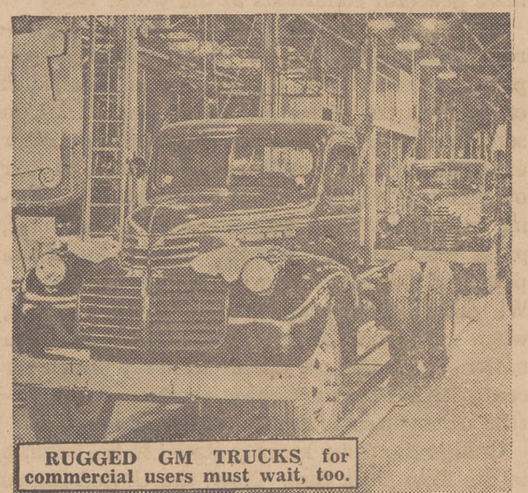
She was a fringe member of the revenge group. Often, I find people who think that way. There is a constant propaganda against the German child. Now they are going to starve him to death.

Mr. Morgenthau's neighbor, Mrs. Roosevelt adds her bit against the helpless. In her Dec. 18th, "My Day" she lets the mask of graciousness slip; and you see her true face, distorted with hate and revenge. That lady is so warm in her expensive fur coat, gift of Canadians; and so full of good rich food that she evidently feels all is well. Imminent starvation doesn't worry her, seeing that the children are only Germans. She forgets all children are innocent.

Who is she to judge them? She is the widow of a man who dealt in German marks during the period of German inflation. As his wife, she must have profited from German misery then. Yours truly, — — M. H.

Here's Your New Car---Stalled by Strike

BODIES BY FISHER stand idle until the GM strike is settled.



RUGGED GM TRUCKS for commercial users must wait, too.

Your 1946 automobile may be stranded on the assembly lines.

A nationwide strike has paralyzed General Motors, the world's largest producer of passenger cars, trucks and buses, forcing consumers to wait indefinitely for essential transportation.

The strike was called by the United Automobile Workers (CIO) to enforce demands for a 30 per cent wage increase. The Union flatly rejected a 10 per cent increase offered by General Motors as a living cost adjustment.

The strike involves 175,000 hourly-rated employes. They are losing nearly $2,000,000 in wages daily, and these losses affect indirectly every phase of the nation's economy. Coincidentally, striking Union members have barred 50,000 office workers from their jobs in GM plants.

Morgenthau's Plan Discriminates Against Germans Only

Editor of The Broom:

Recently the American Cable and Radio Corporation announced direct radiotelegraph service to Budapest, capital of the former enemy country of Hungary, via Mackay Radio. This service enables Americans of Hungarian descent to communicate with relatives and friends in Hungary.

Within an incredibly short time after the signing of the Italian Armistice, the United States restored letter, parcel post, money cable and wireless services with the former enemy country of Italy.

Many American citizens of German descent have contacted with United States government officials, respectfully requesting them to extend these facilities to the former enemy country of Germany, but thus far their pleas have been made in vain.

The Post Office Department has stated that they cannot reestablish mail service to Germany until authorized to do so by the allied military authorities. The War Department has stated that the transportation facilities within Germany, and the capacities of the German Postal Administration are such that no parcel post service is possible at present.

It is a known fact that the city of Budapest was besieged for weeks, and that fighting within the city was heavy and intense causing widespread devastation and destruction. Certainly the Italian cities were just as much bombed and destroyed, and the transportation facilities within Italy were just as much disrupted, as those of Germany. It seems therefore most unfair that Americans of Hungarian and Italian extraction should be granted the right of communication with and helping their relatives and friends, while this same privilege is denied to Americans of German descent, whose contribution to this country since Colonial days have been so great.

With thousands of other Americans of German extraction, I hope that we will very soon be given the opportunity of aiding our relatives and friends in Germany. That would not only help thousands of innocent people who were not responsible for Nazism, but would assist in bringing about more friendly relations between the people of the United States and the people of Germany, which is essential if we are to have peaceful conditions in the world today.

Vengeance inspired plans can only create hatred, resentment and revenge. The German people will never adopt Democracy as their form of government if we are not humanitarian in sentiment, and if we do not set them the proper example of Democracy as guaranteed in our own Bill of Rights. At present we are denying to the Germans freedom of speech, assembly, press and radio, not to mention the right of the people to choose their own form of government. We preach Democracy but do not practice it, when we enslave and starve the entire German nation, and when we doom Germany which for centuries has led the field in chemical and scientific discoveries to economic extinction.

George Sokolsky recenty stated in his column in the New York Sun: "Now, the United States needs to become a just nation, using its strength not for vengeance but for justice, not to perpetuate hatred but in the interest of permanent peace."

Peace on earth, good will among nations cannot be attained by punishment, but by fair and generous treatment. It is to be hoped that the Administration in Washington will soon awaken to this fact and not only grant American Relief for Germany, but pave the way for Germany to have its rightful place among the nations of the world.

Telling Truth About Jews Is "Nazism", Jews Claim

FRANKFURT,— Lt. Gen. Sir Frederick S. Morgan, UNRRA chief in Germany, said that the Jews in Europe apparently had formulated an organized plan for mass exodus from the continent to Palestine.

Morgan said at a press conference that he was unable to put a finger on the purported organization around which such a Jewish movement revolved. He said he believed the organization was camouflaged clearly.

Morgan said he was becoming more and more convinced that reports of pogroms and atrocities against the Jews in Poland were based less and less on fact.

He charged that such stories were by-products of an organized Jewish plan to force the United Nations to take some action giving the Jews a permanent home.

He said that Jews arriving in Berlin in trainloads from Lodz and other Polish centers were "well dressed, well fed, rosy cheeked and have plenty money.

SEES POSITIVE PLAN

"They certainly do not look like persecuted people," Morgan said. "I believe they have got a plan, a positive plan, to get out of Europe."

The general said he did not believe that a mass movement of Jews into Germany "had the connivance of the Polish government or any eastern power."

The people coming in, he added had all the "same monotonous story about pogroms" with which he said one Allied observer had "failed ever to catch up."

WISE PROTESTS STATEMENT

NEW YORK,— Dr. Stephen S. Wise, president of the American World Jewish Congress, said that the statement of a U. N. R. R. A. official charging European Jews with a mass exodus plan "savors of Nazism at its worst."

Schwinn Sends Thanks

Dear Friends:

I was very happy to receive your Christmas card, letter and enclosed check. Thank you so much. I too, had just a very slight little hope of spending this Christmas with my wife, but after all these years full of disappointments one does not pin too much hope on anything. This fifth holiday season to be spent incarcerated at least will be better than some spent in years past. The wife will come over from New York to spend a few hours with me, we are permitted to get a few things sent to us for the holiday, and with the money graciously provided by our friends we can buy a few things here, and so make the best of it.

We are having real Christmas weather. Everything is covered with snow, its plenty cold and bright sunshine make everything look real festive. But my mind goes back to the years passed, thinking of the fun and work in rigging up our Christmas-fair and the house, or singing Christmas carols to our friends the night before Christmas Eve. Those days are gone, but similar one's will come, I am sure. And tho the war has stopped and the fighting goes on in a different form, and more people suffer than ever before, there is one consolation in having peace in our hearts, peace with ourselves—and a clear conscience—which is so much more than many people have.

Wishing you all a merry holiday season, my thoughts shall be with you, and a better New Year, I remain with greetings to all stout friends.

Sincerely yours, H. M. SCHWINN

Dear Mr. de Aryan:

From attached article in New York Journal I quote statement of Zionist Leader Dr. A. K. Silver:

"The spokesmen of foreign Arab states have been threatening violence and war. The American Government should clearly indicate to them (Arabs) that it does not intend to be intimidated or blackmailed in the carrying out of it's own policies."

The Jews expect us, according to above statement (at least by implication):

1 That our Secretary of State should act in the capacity as the foreign minister of Zionism in demanding and pursuing a policy of aggression against the entire Arab world.

2 That if this policy should fail to show results we should not hesitate to use force in the pursuit of this policy, thus inviting a Holy War of the Arabs against us!

Can you beat this, Mr. and Mrs. America. Imagine our Yorkville Germans asking Mr. Byrnes to act or start a policy of threat against the Russians on account of the slaughter of the 94,000 Stalingrad Germans! (which certainly would be only a natural act for Mr. Byrnes to do, since in this case our own western races are at stake and not an alien (oriental) race)!

How would our Jewish "capitalists" react?

Thanking you, Mr. de Aryan, for your kind attention, Sincerely,— TILDE BECK.

America-First Jews, Oppose Zionism

NEW YORK,—The American Jewish Conference charged here that the American Jewish Committee and the American Council for Judaism were "jamming the wires" with propaganda in opposition to the efforts of responsible organs of American-Jewish opinion, as organized in the American-Jewish Conference and its affiliates, with a view to weakening the impact of organized Jewish influence to confuse the issue.

The Executive Committee of the Conference, acting on information submitted by a special committee by the Interim Committee, points out that "we do not question the right of minorities to express dissident opinions or propagate their views," but that the American-Jewish Committee and the Council for Judaism "in successive actions," through meetings with Government officials and through statements in the press and radio, timed to counteract specific actions undertaken by Jewish majorities groups, "indicate a purpose and a plan to subvert the will of the majority of American Jews."

The Conference refers specifically to the meeting of Joseph Proskauer and Jacob Blaustein, of the American-Jewish Committee, with President Truman. On the day the President had met representatives of the American Zionist Emergency Council who demanded that America abide by the Jewish Commonwealth pledge of the two major parties, the Committee "utilied the occasion to advise the President that political questions relating to the future of Palestine should be set aside."

The Conference then refers at length to statements and radio addresses by American Council for Judaism leaders, Lessing Rosenwald, Rabbis Elmer Berger and Morris S. Lazaron, and concludes as regards both these organizations: "The facts speak for themselves. We refer here only to the public record. These activities of minority fragments of Jewish groups were not only a disgraceful and humiliating spectacle. They were, in fact, sabotage of the aims and hopes of the Jewish people."

ANCIENT DISCOVERY IN NEW FORM

Cotton's "K factor" or insulating efficiency was discovered by Egyptian pharoahs thousands of years ago, but until recently it had not been utilized since the time of their historic civilization. American ingenuity, however, finally took advantage of the Egyptians' ideas and the postwar result is a blanket-like cotton insulation, which can be installed by simply unrolling it as the young lady above is doing. This new insulation may mean much to the Southern farmer since it promises to become one of the leading markets for his chief crop.

LIFE OF CHRIST

Jesus the Nazarite

By Dr. OTOMAN ZAR-ADUSHT HANISH

Copyright 1917 by MAZDAZNAN PRESS, Los Angeles, California, U. S. A., Reprinted with author's permission.

(Continued from last week)

When Yousef, in company with his servants, entered the private grounds they heard in the distance the noise of arms and the hoarse voices of soldiers echoing thru the stillness of the night. A conflict, like a struggle between hostile factions, seemed in action, and in the midst of the turmoil was heard the sweet and tender voice of the Master commanding peace.

But the voice was not one of command, or determination, but one of softness, of tremor, of uncertainity. What was this all about? What could it mean? The servants of Yousef impatiently awaited the command of their Lord. Their hands were already upon their swords. They felt it their duty to prove their faithfullness by force and were disappointed to once more hear the voice of Yessu declaring peace.

With His own hands, and with strips of cloth from His own garments, He bound up the wounds of those who were injured during the melee.

"I am He whom ye seek; fear not, I go whither ye lead Me," said the Master.

It was Yessu's coolness, His sweetness and gentleness that calmed Yousef, who then ordered his servants to notify the Congregation of what had happened, after which he went to the sacred chamber where he found the body of Eliye in the stillness of death.

Was it irony of fate or the work of witchcraft exercised by a priest-caste, availing itself of every means, even that of ether, to gain its diabolical ends? Yousef seemed as if riveted to the marble floor of Eli's habitation; his heart felt petrified. What the eyes of Yousef saw, what his mind slowly revealed to him sufficed to quicken him to immediate action. He knew that Yessu would use neither ingenuity nor finesse to protect His person. A bitter cup drank to the very dregs only strengthens the stoic heart and defies all the world with silent contempt. Eliye-Eli had flown the mortal edifice of human endeavor, and all that lay exposed to the gaze of veiled eyes was the collective state of elements ready to follow the bidding of nature's laws without the least resistence.

Yousef, a man versed in the cunning devices of caste-consciousness, knew that time was precious at such an hour of trial. There was nothing pressing at the grotto of Eliye-Eli. His attention must be directed to channels conducive to the rescue of a precious life. Like a flash of lightening he issued forth into the darkness of the night to give orders to his many servants ready to follow his bidding.

Pilate was at once consulted, who determined to delay matters until the holidays. He foresaw trickery and intrigue and hoped to gain time and thus avoid injustice to anyone. But the Sacred Synod demanded a trial without delay. They demanded that the prisoner be judged at once, that Pilate that very night give his decision for crucifixion, and that all necessary preparations to this end be made. They demanded that the order of the Emperor's prefect be carried out, as they held the warrant which entitled them to the execution of their command.

That night Pilate heard the decisions of the minor judges and witnesses and found testimony insufficient to convict the Master, even tho the warrant demanded condemnation to the full extent of the law.

Pilate's household were believers in Yessu's work to a great extent, and Pilate himself, once healed by the Master's hand of a grave malady, was a follower of the Great Teacher. He wanted time to consider the case, but the church demanded immediate action and Pilate was therefore compelled to use technicalities to stay proceedings.

Knowing that Yessu was a Galilean by birth, Pilate thot it best to refer the case to Herod who was then present at Jerusalem on account of the festival. Herod, however knew the holy character and fame of Yessu too well to be drawn into the affair. Knowing it to be a church offense he referred the accusers to Caiaphas and his council for a decision. Thus the proceedings were somewhat delayed.

Caiaphas and his cabinet understood the meaning of this shifting from one court to another and took a firm stand. The intriguers feared that every moment of delay might prove fatal to their plans. Either the warrant might be repealed, or the friends of Yessu might raise an army and by force compel His release. In such an event the festival would prove diastrous to the church, not only morally but also financially.

Thus the council demanded of Pilate an immediate decision. (To be continued)

Fred's Address at Memorial Banquet

Dr. O. Z. Hanish's Birthday, Dec. 19, 1945

Since I have come here to Los Angeles this summer, I have been looking into numerous philosophical-theosophical organizations to broaden and strengthen my outlook upon life. I have found that those outside of Mazdaznan are limited in that they deal primarily with one or a few phases of life, not with all of them. One of the most valuable aspects of life is the care and perfection of the body, the breathing evercises being of primary importance, which I find almost completely lacking in other lines of religious education near at hand. The first six lessons of Dr. Hanish's Health & Breath Culture have given me greater self-control, calmness, relaxation, and clearer, more precise reasoning abilities. For a person like myself in school, carrying rather a rigorous program of activity, I find its benefits to be of extremely high value.

We owe our knowledge of breathing exercises, many aspects of the vegetarian diet and other means of human unfoldment to the late leader of our group who devoted much time and energy that we might benefit from this timeless knowledge. Master traveled throughout Europe giving lectures and talking to hotel chefs concerning a more diversified diet with the regular meat, potatoes and gravy playing a part in the background. He also played a part in emancipating the woman from her old role of delicate daintiness and uselessness when he told them to bob their hair and wear slacks, causing them to adopt more constructive usefullness to society at large. We also owe a great deal to Master for the Inner Studies, for which he spent some time in jail in Chicago.

Mazdaznan is a science, and the world is generally becoming aware that science in its classical sense is more closely approaching religion. World famous scientists throughout time have given acknowledgement to a Supreme Power and have come to some conclusions in scientific phenomena which otherwise would have been long delayed had it not been for these assumptions. We ought to be glad to know of Max Planck's recent interest in Mazdaznan; Mr. Planck is a physcist of world renown who has contributed most in the field of light. I received this information from Othmar Boehm in Switzerland, a Mazdaznan and also a physicist.

We must remember that "things of the world," in common terminology, applies to things which tend to draw the mind away from the important features of life that bear first constructive spiritual significance. But even "things of the world" had to have a spiritual source of manifestation, and it is well also to understand them and not cast them aside ignorantly. The apparently worldly situations, conflicts and peoples can often be dealt with in the interest of their advancement, and our association with them need not imply that we are of them; Jesus mingled with all of them and opposed openly the abuse of the worldly powers of the day, in the interest of the common good. Mazdaznan is the most complete form of spiritual rebirth taught in the world today, and it divulges, especially now, upon the students and teachers thereof to spread and demonstrate the message to the world at large. The United States contains a fair cross-section of every creed on the face of the earth, so that it is natural that every aspect of life might be brought forth in this Nation which leads the world today.

To save the world from ultimate destruction thru criminal use of atomic energy, it lies with the Mazdaznans to conserve their planet by awakening the students of the classical Sciences and Religions which awakening is having a slow beginning. California's mild climate and sub-tropical atmosphere has been an attraction to all sorts of theosophical groups, and is the spiritual growth center of the world, as well as the spiritual economic and political cross road. Let's wake up and go to work!

The Galilean Prayer

When the goodly days shall come, then shall men rally about those who have taught them to pray—

"Our Father, who art in heaven: give us of Thy wisdom;

"Give us this day our daily illumination to light the way of feet that do falter;

"Give us this day, not our daily bread, but bread for those who hunger more than we do.

"Lead us not back into quagmires of ignorance, for such is not Thy nature, but send us ennoblement that we may manifest our dignity, our wisdom, and our vision, to unborn generations.

"Peace, and goodly heritage be upon the nations!

"This, our prayer, we pray in tranquillity, that those who say it after us may live it in their intercourse!" AMEN

One-Hour War of Atomic Era

Grimly warning that "the industrial might which decided this war will not count in the next, because it may end in the first hour" in an age of atomic weapons, Dr. Richard Madden, San Diego's educator, stated that all nations of the world must be educated away from the whole concept of war.

Madden, professor of education at State College and principal of the campus elementary school, addressed the Lions club luncheon meeting at the San Diego club.

"In five, 10 or 15 years the new (atomic) age will be with us, in all its splendor and fury," he predicted. He listed a few of the great industrial and economic potentials made possible by release of atomic energy, but added that "we seem to be standing dazed, blinded, dumb because of our opportunity, dumb because we have no language for it, afraid because our hearts are too small."

NO REAL SECRET

Madden pointed out that scientists of all great nations possess the "secret" of atomic fission, that the only real secret is the technological procedure of collecting enough material and detonating it. Because America has produced atomic bombs in only three years "from theory to reality," Madden declared the atom bomb will be a world-wide weapon in "three to five years." He also debunked possibility of the British, the Canadians or Americans controlling raw materials for A-bombs.

"One nation," he warned, "could have five times as many bombs as the other and still each would have enough to wipe out all the cities of the other.

Defense against atom bombs, Madden said, quoting many military and scientific experts, will be difficult if not impossible. "If we are going to adopt a policy of defense and armament competition, the only sensible thing to do is proceed to scatter our cities at once and build underground.

"Instead of spending our money for military training, we had better be training scientists, building rockets and digging underground."

Madden said some persons have suggested as an alternative to underground cities and factory dispersal the defensive value of a "huge fleet which is kept scattered over all the oceans at all times.

UNLIKELY TO WORK

"A thousand ships could each carry 100 rockets laden with one bomb each. By firing strategically they could almost blast the earth out of its celestial course—and there would be no fun left for anybody."

Outlawing of the atomic bomb is unlikely to work, Madden stated, nor is international control certain of success unaided. "We shall need a pretty well balanced group of controllers," he commented.

Instead of an atomic armament race, or international control, Madden proposed that "we should spend two billion dollars at once to assemble the best social science and psychological brains in the world and then listen to what they tell us." He declared: "Reconversion in one generation of 1000 years of international policy of war is the Double A-1 job."

PROPHET QUOTED

Toward this aim he quoted a formula laid down by a rabbi 2700 years ago: Isaiah's "and they shall beat their swords into plowshares, and their spears into pruning hooks; nation shall not lift sword against nation; neither shall they learn war any more."

Madden said that Isaiah's supreme authority was God, but for "this earth as it is now organized, the instrumentality must be an organized international body." To this he would add international law; the power to rebuke recalcitrant nations (with weapons other than atomic bombs); an economic program for all nations of the world, and an educational program. "Education," said Madden, "is the core."

"Education is the only power which can possess the equivalence of the power of atomic fission."

Think!

Counsel of the Nation, our celebrated professors of Greek and Sanscrit, they who knew everything, except all that was so urgently needed by their fellow citizens!

These sages sat on the benches of the Reichstag, full of wisdom and rich in good intentions, but more barren of counsel than a simple farmer.

They looked on the struggling nation as on an audience in their college room and dreamt the dreams of their closets over again in the halls of St. Paul.

While disputing about the form, they lost the substance; while wrangling about the binding, they lost the book..

Germany was praying to God day and night: "Look down upon us in mercy and help the wisest of our men to common sense!"

Alas! Her prayer was in vain!

OUR GROUNDHOG WORLD

By Geo. Cartwright, Modesto, Calif.

CALIFORNIA vs. MISSIPPI

During the war about 200,000 Negroes were imported from South and East to work in munitions plants and shipyards. The services of thousands are no longer needed and they have created a terrific problem for the West Coast.

They are being urged to return home, but for the most part are unwilling to go. They have a common saying which puts it bluntly: **"Better on relief in California than on a job in Mississippi."**

COURAGEOUS CONGRESSMAN

Like the righteous in Sodom and Gomorrah there is a scarcity of brave men in Congress. Outstanding for courage and admired by newsmen is Jerry Voorhis who discards the title "Hon." before his name but merits it more than many others. Congressman Voorhis has turned the light on the oil barons, the bankers and other privileged groups. His book "Out of Debt Out of Danger," shows the reader how bankers make their money—what we call legalized counterfeiting as a dollar has no moral value unless produced to represent a dollor's worth of service or wealth produced. The GAP—Great American Plunderbund, publicised an effort to get Gen. Patton as a candidate to defeat Voorhis. The latest demonstration of Voorhis' fearless spirit is a speech advocating world peace and reinforced by scriptural quotations—this in the face of Christ's warning: Matt. VII-6. "Give not that which is holy unto the dogs, **neither cast ye pearls before swine, lest they trample them under their feet, and turn again and rend you."**

(G. M.'s) WILSON'S WAGES

Please weep as you read about General Motor's Wilson's Wages: A. E. Campbell, Winfield, Tex., writing in LaFollette's Progressive, states: "According to his income tax report made public by the Treasury Dep't, Charles E. Wilson, head of General Motors, took for himself from that corporation in 1943, $459,041.00. That figured out at—$38,253.43 per month. 1,-275.00 per day, 53.12 per hour, 8.85 per minute and 1.47½ per second.

"For each time his watch ticked day and night throughout the year he took from General Motors the sum of $1.47½. No wonder they can't pay their producers any more wages."

HOME BUILDING

When the building trades are active all other trades and industries thrive. You will never suffer extremity of depression when the sound of the hammer is heard in the land. **The actual erection of houses is allied with the making of furniture and furnishings, and the three together constitute a major portion of human activity.**

In view of the importance, both human and economic, of housing, it is regrettable that houses are our most heavily taxed commodity... it is subject (in Canada) to an annual, recurring municipal tax of about 3 per cent.

—Hon. A. W. W. Roebuck in Canadian Senate.

IRAN'S OIL

Practically everything (news) that we get from Iran comes from British sources. Naturally the stories are "shaded" in favor of Britain. The Russian side trickles through once in a while.

About all we know is that **much of the quareling is due to the fact that Iran contains immense oil deposits. Russia wants that oil. British and American oil companies are also after it.**

There's no contentment to be found
With this poor restless soul
Yet—there's enchantment all around
And somewhere—there's a goal.

James Bryan

James Roosevelt is playing politics in California with a vengeance. He is likely to run either for Governor or the U. S. Senate. In a recent address he brazenly said that he expected "to address numerous Communist gatherings in the near future." At one meeting addressed by Jimmy a resolution was offered condemning Communism, but it was defeated by a large majority, indicating the type of politicians Jimmy is running around with.

If Rudolph Hess is permitted to testify fully in the Nuremberg trial, he may embarrass many important politicians as well as certain Russian higher-ups. After all, Russia and Hitler were allies at a time when Western Europe was overrun. It is believed by many that Hess and other high Nazis had been in close contact with certain important British officials.

The book "Strange Fruit" has been dramatized and is playing in New York. It is the story of a white man who falls in love with a Negress. It is being pushed, praised and glorified by the left wingers and the Communists in an attempt to popularize the intermarriage of the black and white races.

Hitler and the Jews

(Continued from page One)

In the narrow sense a Jew is a follower of Moses; in the larger sense all of us who break God's commandments are on the same level and become **subjects** of the more aggressive Jews. We can either follow God and be free, or break His laws and be subject to Mosaic rule. The very fact that the Jews rule the world today, literarily, proves the truth of our analysis.

Jesus came to give rebirth to the original religion of Abram, the Aryan, and show the Jews how they may redeem themselves. You know what happened. In chapter 8 of St. John, Jesus makes a clear distinction between the religion and the seed of Abram and the devil's licentiousness. He places the stamp of murderers squarely **upon** the devil's offspring and they prove it to this day.

HITLER and NAZISM

Hans wants to know whether Hitler was not right in defending Germany against the Jews and against the Allies of the Versailles treaty and its subsequent conditions. He enunciates: "... but is it not also true that any man or nation has a right to self-defense, **no matter what** it may have been forced to commit in the course of struggle?"

This is the age old sophistry of the end justifying the means which is Jewish, Greek, Jesuistic, Communistic but **not Aryan, not Christian,** not true.

Two wrongs don't make a right and two crimes don't produce heaven and peace. They don't cancel each other but augment the hell of it. Hence Moses, Hitler, Stalin, FDR are all wrong and the murderous wars prove it. Did Hitler defend Germany or did he drive it into the very trap the Jews had set?!

Hitler's and Himmler's, Goebel's and Streicher's idea that brutality and mercilessness would free the world from the Jewish curse is wrong. This is Hitler's great weakness and mistake. The Jews are the very product of the idea that the end justifies the means, hence Moses married a Negress to populate the world more prolifically with his licentious kind.

Christ saves and none else. Christ is the lawful Ruler, the obedient Son of God who lays down His Life in Obedience to fulfill the Will of Father who does not want to take the life even of a sinner but wants to save and redeem it, to return back to Father's house of Love and Plenty.

This is the difference between Nazism and **the true defense** in accord with divine Law. He who wants to save his life by the sword shall lose it; he who gives up his life for God's sake wins it. Hence all military defense is in vain. Disaster overcomes all countries just the same and that is what Gen. Washington saw in his vision.

"Let every child of the Republic learn to live for his God, his land and union."

His God first, then his land and union are safe because God rules supreme and Love conquers enemies while Force makes more enemies, never turns them into friends as Love does and consideration for the Rights of "enemies." When we concede the rights to Life, Liberty and the pursuit of Happiness and work to give them to our "enemies" who will fight us? What for?

Had Hitler respected the natural rights of Jews and only curbed their excesses, Germany would have led Europe into a United States of Europe.

POLICE POWER for SELF-PRESERVATION

Every man and every nation has the right to self-defense. Were we a Christian people nobody would dare invade us because we would hold atomic power secrets none could match, due to our superior, divine ingenuity, for God never leaves His children a prey of circumstances. But Gen. Washington foresaw correctly that America is yet populated by semi-savages and hence Europe, Asia and Africa rise in revolt against our control of their lives via our superior armed forces. To bring us to our senses the rest of the world is already uniting.

Police-power is the right of the use of force to offset force and subdue a violent offender. That does not give the policeman the right to abuse the subdued offender as we are doing to Germany and Japan. Neither did it ever give the right to Hitler, Stalin and FDR to persecute dissenters.

The white race, to preserve itself must follow in the footsteps of the Christ, not Moses. All military activities are Mosaic, hence destructive to the white genius. God rules or does not. If God, the source of Life and Power, rules, then, it is safer to obey His commandments than to follow Moses and his example of licentious ruthlessness. Of course, Gen. Washington's vision will be materialized. The U. S. A. will be invaded by our dear Allies, as well as "enemies", whom we are financing and donating our surplus war equipment. General conscription will take place. But peace could be had by general world disarmament already now.

The savages in the U. S. A. and the savages in Europe, Asia and Africa don't believe in the Rule of God. The Bible teaches rule of the sword. Hence they are all due for the final carnage.

Defense!? There is none. Men, women and children will be massacred on both sides. **Exhaustion** will bring about peace and an awakening to the Truth.

Ezra Pound Is Declared Insane

PROSECUTORS TO DEMAND PUBLIC INSANITY HEARING

WASHINGTON,—Ezra Pound, the American-born poet accused of treason, was declared to be "insane and mentally unfit for trial" by a board of four psychiatrists, and was ordered removed to Washington's St. Elizabeth's Hospital for the Insane by a Federal District Court here.

The prosecuting attorneys, however, said they would demand a public insanity hearing and pointed out that immediately before Pound left an army prison camp in Italy a month ago army psychiatrists examined him and found him sane.

The District of Columbia psychiatrists, who made their report to Chief Justice Bolitha Laws, said they found Pound "mentally unfit to advise properly with counsel or to participate intelligently and reasonably in his own defense." They described the poet as "abnormally grandiose, expansive and exuberant in manner."

Accused of nineteen overt acts of treason for expounding Fascist propaganda against this country over the Rome radio, Pound has been in Gallinger Penal Hospital here for observation since Nov. 27, when, during his arraignment for treason, he stood mute on ground of his mental condition.

On the basis of their study, the psychiatrists reported that Pound's Fascist radio activities stemmed from what was termed a "self-appointed mission to save the Constitution."

Julian Cornell, of New York, Pound's defense attorney at the original arraignment, suggested that the poet's condition was largely a result of treatment he received at the Army prison camp. The sixty-year-old prisoner had been kept "incommunicado" in a small iron cage for seven months, he said.

The defense attorney—who was chosen by the court, since Pound refused to pick his own—said the poet was exposed to the sun in the day and to floodlights at night. He had no furniture in his cage and was obliged to sleep on a blanket on the cell floor, Mr. Cornell said.

The psychiatrist's report to the court said that "in our opinion, with advancing years, (Pound's) personality—for many years abnormal—has undergone further distortion to the extent that he is now suffering from a paranoid state."

At his arraignment Pound's attorney asserted that the poet was also suffering from claustrophobia and showed "extreme terror" when inclosed in the District of Columbia jail. This, the defense attorney said was because of the imprisonment in Italy.

Prosecuting attorneys, however, said they believed Pound, like Rudolf Hess, might easily be feigning insanity to escape a trial that might cost him his life. For that reason, they said, they would request a public insanity hearing. The prosecutors said Army psychiatrists thought Pound might be suffering from claustrophobia, but that it was a temporary condition, and that in other respects, except for his usual eccentricity, the prisoner was sane and able to stand trial for treason.

N. Y. NEWS ADVITISERS PICKETED

NEW YORK,— Aiming to hit The New York Daily News where it will hurt most—right in the budget—the Veterans Committee Against Discrimination has announced that it would shift its picket line from The News building to News advertisers.

First big advertisers to be graced with the veterans' picket line were Macy's and Gimble's department stores. The committee said it was withdrawing its daily picket line from in front of The News building to throw all the forces it could muster in the campaign to persuade advertisers to stop supporting the newspaper.

My Dear Mr. de Aryan:

I wish you God's and Man's blessings. May the power of the Almighty Greator give you many more years to live, and give you strength to continue your noble work.

Carry on the good work. It is refreshing to come across a man who is not afraid to tell the truth.

I am sincerely, yours, — — W. W.

A real attempt will be made in Washington to bring America into a World Government. It will be unsuccessful. Even Senator Connally and Senator Vandenberg will fight the Super State. The loosely organized United Nations set-up is threatening to fall apart.

Van Hyning on Negroes in the Revolution

By WASHINGTON ADAMS

WASHINGTON, (Special),—I appreciate hearing from true patriots. I have enjoyed recently two letters from the West—one from Mrs. Lyrl Clark Van Hyning of Chicago and the other from Editor Hubert H. Heath of Hot Springs, New Mexico.

Mrs. Van Hyning wrote:

"In Nov. 19 'Broom' you say: 'Mrs. Van Twyning thought 50 per cent of the American Revolutionary fighters were Negroes.' Do you have absolute figures that 'less than one per cent were Negroes?'

"Believe me, Mr. Adams, I am a seeker after Truth—a humble follower in the way—and never do I wish to justify myself in wrong.

"The figure I quoted (not thought) was brought out in The Rotarian—the national or international magazine of Rotary International, which is usually accepted as straight. Their figures were 51 per cent actually fighters—although in some cases substitutes and fighting under the names of their white masters.

"Your articles in The Broom are always read and appreciated by me. You have the great gift of presenting a case impersonally.

Sincerely yours,
LYRL CLARK VAN HYNING.

"P. S. I don't object to being called "emotional" but I do feel hurt when my name is misspelled."

I answered Mrs. Van Hyning as follows.

MRS. LYRL CLARK VAN HYNING,
537 S. Dearborn St.,
Chicago, Illinois.

Dear Mrs. Van Hyning:

I appreciate and thank you for your most interesting letter, and especially for your kind words regarding my writing. Your statement that **"I have the great gift of presenting a case impersonally"** is very pleasing and I shall treasure it always, as an ideal to aim at and endeavor to live up to.

You yourself are a very gifted writer and speaker, and I enjoy reading your daring essays in patriotism and sound Americanism. You are doing fine work.

Your willingness and desire for enlightenment in the matter of **"Negroes in our Revolution"** reveals your breadth of mind. "The Rotarian" Magazine must have been confused by some such statement as this: "At least 50 per cent of American Negroes were on the patriot side in the Revolution." That may have been true as to their sympathies, but is very false if applied to their bearing of arms in that epochal struggle.

I will call your attention to a few figures, taken from official U. S. census records, which will show how impossible the 51 per cent would be:

The first census (1790) revealed a population over 80 per cent white, with around 19 per cent Negro. For the Negroes to have produced 51 per cent of the soldiers would have required the solid Negro population and have indicated that the white Americans were slackers, since it was entirely a volunteer army.

Take New England. Its white population was 98.3 per cent, Negroes not quite 2 per cent. In Vermont there were only 3 Negroes out of each 1,000 population. Yet Vermont (you remember the famous "Green Mountain boys") and every New England State contributed their quota of patriotic fighters under Washington.

They contributed a number of able generals, such as Nathaniel Greene of Rhode Island, who was a leader during the first half of the war in the North and the final half in the South.

In the Middle States, such as New York and Pennsylvania, the white population was 93.8 per cent, Negroes a little over 6 per cent. The men at Valley Forge and their brave brothers in other States were white men. A very few Negroes did carry muskets, but most of the others who participated did so as cooks and commisary workers.

In North Carolina the white population numbered 73.2 per cent to the Negroes 26.8 per cent. Yet history says that not one Negro carried a musket at the decisive battles of Kings Mountain, Cowpens and Guliford Court House.

The French soldiers under La Fayette were white. **The Pennsylvania Germans furnished ten soldiers to the American cause for every Hessian hired** by King George. They were all white.

You can find my census figures in the great book, "A Century of population Growth," page 82, issued by the U. S. Govt. Printing Office in 1909.

It has been said that one-third of our people were for the Revolution, one-third indifferent and the other third sympathetic to Britain, under whose flag they were born. Most of the British army at Kings Mountain were American Tories. Our total white population was a little over three millions, the Negroes a little over a half-million.

I hope this clears up our American (white) Revolution for you. Again thanking you for writing me, I extend to you my very best wishes, Yours faithfully,

WASHINGTON ADAMS.

"Mockies" In Persecution Of American Teacher

May Quinn, Old-Stock American Teacher, Is Object of Vicious Persecution by Left-wing Russian Jews

BROOKLYN, N, Y., (Special),—Miss Quinn, fourth-generation American and for 27 years a successful teacher in Brooklyn's public schools, has undergone a week of "trial" before a three-man board on the charge of "intolerance" and "un-American" remarks outside of her classroom. Jewish hysteria and pressure forced the Superintendent to suspend Miss Quinn pending trial.

The hearing at the Board's headquarters, 110 Livingston St., was adjourned until January 2, with Miss Quinn on the stand, denying all of the charges made against her by "Red Mockies" (Russian Jews).

This is a persecution that should be exposed all over America, so that real Americans everywhere, especially out in the interior, can understand what real patriots have sometimes to undergo in our great foreign metropolis.

If an American group were to grab up a Russian Jewess and subject her to the intolerance and harassment that have been Miss Quinn's lot for the past three years, every Jewish paper in America would scream in gigantic headlines.

Away back in November, 1942, when the war fever was high, Miss Quinn, of Irish extraction and proud of her stock, wrote on a blackboard a number of "war firsts," as follows:

"1st American to kill a Jap was Michael Murphy.

"1st to prove the effectiveness of a torpedo boat was Capt. John Bulkley.

"1st flyer to bag a Jap was Capt. John O'Hara.

"1st Coast Guardsman to detect a Nazi spy was Ensign John Cullen.

"1st American decorated for bravery by the President was Lt. Patrick Powers."

14 JEWS ATTACK HER

For this harmless act—the free speech guaranteed her by the Bill of Rights, 14 of her fellow teachers (12 of them with typically Jewish names and two of uncertain origin) signed a paper, preferring charges of intolerance against Miss Quinn to the school's head.

Nothing came of their charges, but in due course Miss Quinn sued the 14 for $150,000 libel damages. She lost the case on a technicality. The court ruled that, under privilege, the teachers had a right to bring charges to the school's head and that, regardless of truth or error, it was not libel, unless special damages could be shown.

Not one New York paper published the reason for loss of the case by the plaintiff; all Jewish papers made it appear that the charges against Miss Quinn were sustained.

DARK GENTLEMAN WAS 'COHEN'

The Russkys claimed, in their protest, that Miss Quinn had copied the "First Americans" from a leaflet that had gone all over America, but that she had omitted the final line:

"THE FIRST AMERICAN TO GET FOUR NEW TIRES WAS ABE COHEN."

This sentence the red teachers and the bolshevick "PM" had labelled "viciously anti-Semitic."

(Most white Americans had read the leaflet and got a laugh, regarding it simply as a good Jewish joke).

Miss Quinn denied she had ever read the leaflet, or had ever praised Hitler, Mussolini and the Japs, except as other unbiased Americans and Britishers (like Winston Churchill) had done, (and then only in peace times).

Two of the three board members seem to be old-stock Americans, although one of them voted with the Jewish chairman Fackenthal to admit evidence of opinions expressed by Miss Quinn outside of her classroom. Miss Quinn said that not one word of criticism had ever previously been made against her in her 27 years of service. She has an able lawyer in Robert H. Elder.

My Dear Mr. de Aryan:

I simply feel that I must say a Word to Mrs. Karl Basler, as I have no Address of her, I beg of you to deliver this Mesage to her.

As an Austrian, I certainly appriciate, the Truth that she spoke, I too I am a new subscriber for the very reason that I thought, you are telling people of the U. S. A. the truth. About why we are having such miserys to go trough in that eria of Europe. Of course it dates way back to the days of Habsburgs, when Kaiser Franz felt so sorry for those people in Ghettos, but now we are in much worse Ghettos, and must ceep very quite abouth it if we want to live.

We felt very sorry for the people hwo came from Poland Russia every where, and made them feel at home, so that it became a Paradise for them, and she is right, when she says they never had to work with their hands, for we did all that for them, Including myself. Only those that lived there, propaganda is imune to us.

Thank you Mr. De Aryan, and Mrs. Carl Basler. Sincerely, C. M.
